### REPORT OF SUPERINTENDENT OF SCHOOLS

*To the School Board of Newfields, N. H.:*

It gives me pleasure to submit my annual report as superintendent of the Newfields schools, the thirteenth in the series.

The pupils of Newfields are located in various elementary and high school grades as follows:

Grades	1	2	3	4	5	6	7	8	9-12	t't'l

---

Totals	10	6	7	11	7	5	7	4	8	65
--------	----	---	---	----	---	---	---	---	---	----

The wisdom of retaining in service teachers of maturity and experience, who have shown ability and a knowledge and understanding of local conditions, continues to be apparent. We have technical means of checking and testing which tell us of the progress the pupils are making in our schools. Visits of inspection and supervision,

consultations with teachers, hearing of lessons, examination of actual school work and the use of standard tests of a more formal kind constitute these means. The results of these measures during the past year have been uniformly good. I commend the teachers to your notice as being zealously devoted, not only to the usual school duties, but to their duties as citizens. I also commend the School Nurse for a large measure of success in her work, a work of definite and vital importance to the individual pupil and to the community. The part played in the past year by home and parent and by citizens at large has been another factor in the present success of the school. Schools will rarely be unsuccessful where there is this full understanding and cooperation. We believe that if we do not produce in our schools well behaved citizens we fail in our mission, and we talk much in the school about conduct on the street and in the home. We are very thankful for the strong reinforcement which we in the schools receive from our neighbors and from the parents of our pupils. We have material evidence of this interest in the gift of screens for all the school house windows, and in the milk now provided daily for each pupil. Our thanks are due the Parent-Teacher Association for these gifts.

In the interest of economy a number of the statistical tables which my report has contained of late years have been eliminated. I include, however, three of the most important, those giving information about the life of the school as regards attendance, size and the like. I commend them to your notice.

We, who are actively engaged in the schools, are glad to have this opportunity to acknowledge publicly our obligation to all those interested in our work.

Respectfully submitted,

CLIFTON A. TOWLE, Superintendent,  
Supervisory Union, No. 16.

Exeter, N. H., February 11, 1932.

## REPORT OF THE SCHOOL NURSE

Exeter, N. H., February 11, 1932.

*To the School Board and Superintendent of Schools,  
Newfields, N. H.:*

Following are listed the activities of your School Nurse since September 1, 1931:

Number of pupils examined	47
Corrections made (vision)	4
Taken to underweight clinic	9
Defects found as follows:	
Vision	5
Teeth	27
Tonsils	9
Adenoids	1
Asthma	1
10% underweight	13

Through the Newfields Chapter of the American Red Cross two pupils have been fitted with glasses. This organization has promised to defray the expenses of those pupils who are later to be relieved of diseased tonsils. The Parent-Teacher Association has for some weeks supplied milk daily to all the pupils of the school. There is still the question of the correction of dental defects, but I am sure that in the near future this matter will be attended to.

The cooperation which I have received in Newfields is very encouraging and I wish to take this opportunity to thank each and every one of the people of Newfields for their wonderful help.

Respectfully yours,

ANGELA HIGGINS DOLBEC, R.N.
